- Further material could be distributed during the semester

### Information

## Suggested textbooks

- An introduction to medical statistics, by M Bland, Oxford Medical Publications
- Medical statistics at a glance, by A Petrie & C Sabin, Ed. Wiley-Blackwell

### Information

## Lectures

- Please regularly verify the schedule!
- Schedule:

|           |         |
|-----------|---------|
| Tuesdays  | h 09-11 |
| Thursdays | h 09-11 |

- It is suggested to bring your copy of the **slides**, **exercises** and **booklet of formulas** at the lectures
- Please bring also a **calculator** for exercises (a simple one with exponentiation and squared root function suffices)

### Information

## Exam

- The final assessment is a written exam. It consists of 5 open questions (exercises, notions) to be answered in 1 hour.
- The Student can use the booklet of formulas and tables provided by the teacher, and a simple calculator. NO other material can be used!!
- Students unsatisfied with their score can repeat the exam, provided they communicate this to the teacher immediately after the publication of the scores
